Career Objective

Enthusiastic and motivated tech professional with a strong foundation in programming and problem-solving. Eager to apply my skills across diverse technical roles while continuously expanding my knowledge. I am driven by curiosity, committed to delivering practical solutions, and always eager to learn, ready to unlearn, and excited to grow in a fast-evolving technology landscape.

Projects

Cross-Genre Content Recommendation System

Python, Scikit-learn, Pandas, TF-IDF, Kaggle

- Built a recommendation system capable of suggesting content across multiple genres using natural language processing.
- Utilized TF-IDF vectorization and cosine similarity to match user preferences with content metadata.
- Used Kaggle datasets for training and evaluation; implemented feature extraction and model tuning.

Hand Gesture Controlled Android Game System

OpenCV, MediaPipe, PyAutoGUI, BlueStacks

- Developed a real-time hand gesture recognition system to control Android games via simulated keyboard input.
- Used MediaPipe to track hand landmarks and OpenCV for gesture processing.
- Mapped gestures to keyboard controls using PyAutoGUI and interacted with games via BlueStacks emulator.

Education

JECRC University

Bachelor of Computer Application (CGPA: 8.24)

July 2023 – June 2026

Jaipur, Rajasthan

St Francis Composite PU College

Higher Secondary Education - PCMC (75%)

April 2019 – June 2021

Koramangala, Bengaluru

New Cambridge Public School

Secondary Education (82.56%)

March 2019

Electronic City, Bengaluru

Technical Skills

Languages: C, C++, Python, SQL(Intermediate)

Developer Tools And Frameworks: VS Code, GitHub, Power BI, Pentaho(Intermediate), Linux(Basics)

Spoken Languages: English, Kannada, Hindi

Soft Skills: Learning Agility, Teamwork And Collaboration, Communication

Coding Platforms

- **LeetCode:** Solved 100+ problems.
- **GeeksforGeeks:** Solved 130+ problems.

Certifications

- EC-Council Certified Security Specialist (ECSS)
- Certified Ethical Hacker (CEH)
- SQL Basic And Intermediate (HackerRank)
