Professional Summary

AI/ML Engineer and Full Stack Developer with expertise in software engineering, cloud computing, cybersecurity, data science, DevOps, backend systems, frontend frameworks, database management, automation, NLP, computer vision, and scalable AI deployment. Experienced in building enterprise-grade applications, REST APIs, machine learning models, and cloud-native systems.

Technical Skills

Python, Java, C, C++, JavaScript, TypeScript, Go, Rust, Kotlin, Swift, PHP, Ruby, R, MATLAB, Scala, HTML, CSS, React, Angular, Vue.js, Next.js, Node.js, Express.js, Django, Flask, FastAPI, Spring Boot, TensorFlow, PyTorch, Keras, Scikit-learn, OpenCV, NLP, Computer Vision, LLMs, Generative AI, LangChain, Pandas, NumPy, Data Analysis, Data Science, Machine Learning, Deep Learning, Artificial Intelligence, Data Structures, Algorithms, System Design, Operating Systems, Computer Networks, DBMS, SQL, MySQL, PostgreSQL, MongoDB, Redis, Firebase, Docker, Kubernetes, Jenkins, Git, GitHub, CI/CD, AWS, Azure, Google Cloud, Cloud Computing, Linux, Cybersecurity, Ethical Hacking, Penetration Testing, REST APIs, GraphQL, Microservices, Blockchain, DevOps, Agile, Power BI, Tableau, Apache Spark, Hadoop, Kafka

Work Experience

Senior AI Engineer – TechNova Solutions (2023 – Present)

- Developed AI-powered resume shortlisting systems using NLP and machine learning.
- Built REST APIs using FastAPI and Node.js.
- Deployed ML applications using Docker, Kubernetes, and AWS.
- Improved candidate-job matching accuracy by 35%.

Software Developer – CloudSphere Technologies (2021 – 2023)

- Developed scalable full-stack web applications using React and Django.
- Integrated PostgreSQL, MongoDB, and Redis databases.
- Automated CI/CD pipelines using Jenkins and GitHub Actions.
- Implemented authentication and cybersecurity best practices.

Education

Master of Computer Applications (MCA)

Bangalore University – 2024

Bachelor of Computer Applications (BCA)

National Institute of Technology Studies – 2022

Projects

AI Resume Shortlister

- Built a resume parser with skill extraction, keyword matching, and candidate ranking.
- Extracted name, email, phone number, and technical skills using NLP techniques.

SmartMentor AI

- Created an AI-powered student assistant for learning and career guidance.
- Integrated cloud deployment, chatbot features, and recommendation systems.

Cyber Threat Detection System

- Developed ML-based intrusion detection system for cybersecurity monitoring.

Certifications

- AWS Certified Cloud Practitioner
- Google Data Analytics Professional Certificate
- IBM AI Engineering Certificate
- Cisco Cybersecurity Essentials
